

TEAM ISTE PRESENTS  
**PRODYOGIKI**  
NIT HAMIRPUR

## MOLECULAR MYSTERY

After a lot of hardworking hours which were put in for repairing their space ship, they were left with only one goal to achieve in order to return to their home planet. And that was arranging fuel for the ship. Since, it did not run on any regular fuel found on earth, they contacted their home planet in order to get information about their fuel manufacturing. But, alas, instead of giving them regular directions, their home planet people gave them a **MOLECULAR MYSTERY** and provided them with some clues to get to the ingredients of the fuel.

A team can have a maximum of 4 members.

### Round 1- The Quiz round :

- Questions based on sports, web series, tricky logics, technology and basic chemistry shall be asked.
- The test will be for 20 min comprising Multiple Choice single-correct option type questions. The qualifying marks would be 40% of total marks. Any team scoring less than that would be naturally disqualified from the next round.

Top 10 teams will be selected for second round based on their performance in this round.

### Round 2- Treasure Hunt :

- The first 10 teams qualifying the quiz round shall further be a part of the treasure hunt. There will be 8 locations to decode in form of 8 different clues.
- The clues will be based on chemistry, Science, Myths and symbols.
- Eight clues will be there per team.
- They would have to show their clues at the next level and will further be given the next clue.
- Teams must also keep all clues with them safely till the treasure hunt ends.

Top 5 teams will qualify for the final round.

### Round 3:

That's the final mystery only to be revealed to the Top FIVE teams with all the clues! Come to find out what it is!
